

Matthew Clegg - SilverStripe Developer

m@cle.gg

+44 (0) 7478 575533

Over **17 years** of industry experience, developing with client, server and infrastructure technologies. Skilled in automation cloud orchestration tools (Kubernetes, Terraform, Helm, Ansible etc), server-side technologies (GoLang, Python, PHP) & client front-end languages (HTML, CSS and JavaScript). I have experience creating and hosting websites using complex math & basic logic for most common content management systems. My previous work experience includes projects with numerous digital agencies, startups and corporations.

CRM Developer

Farringdon, London 2014 - 2015

Developed internal CRM(s) for various back office tasks including registration of users for conducting usability tests. Tasks included; application code, database design, importing from existing .xlsx solution, creating export/reporting functions, integration with Mandrill API for sending email campaigns and automating deployments to Windows host machines.

[php](#)

Web Developer / Consultant

Shoreditch, London 2012 - 2014

Various high performance and large content websites mainly for Suffolk County Council. Ongoing maintenance / improvements on a high security website that provides support and funding for children with disabilities, Suffolk Council Informational services website, and Suffolk County Music Service Educational website.

[devsecops](#) [php](#) [shell](#)
